GDPR: A practical guide for American businesses - Vox

The EU-US Privacy Shield is a framework for exchanges of personal data for commercial purposes between the European Union and the United States. One of its purposes is to allow US companies to receive personal data from EU organizations more easily, while complying to the EU privacy laws meant to protect EU citizens.

NEW EU DATA PRIVACY LEGISLATION (GDPR) | export.gov

EU GDPR. The European Union's General Data Protection Regulation (EU GDPR) broadly applies to data about persons who reside in the European Union. GDPR limits when and how organizations worldwide can collect, store, process, and use personal data. It also provides individuals with certain rights related to their personal data,...

EU GDPR & EU-U.S. Privacy Shield: A pocket guide, second ...

What is the EU-US Privacy Shield? The EU-US Privacy Shield is a program where participating U.S. companies are considered to have adequate data protection, and can therefore facilitate the transfer of EU data. The EU-US Privacy Shield's predecessor, the Safe Harbour Framework, was overhauled because the EU did not consider this agreement strict enough on data protection for their citizens. The GDPR protects the data of all EU citizens, regardless of whether they currently live in the EU.

10 ways GDPR differs from the US privacy model: PwC

Privacy Shield is an agreement between the EU and US allowing for the transfer of personal data from the EU to US. The GDPR has specific requirements regarding the transfer of data out of the EU. One of these requirements is that the transfer must only happen to countries deemed as having adequate data protection laws.

In general the EU does not list the US as one of the countries that meets this requirement.

EU vs US: How Do Their Data Privacy Regulations Square Off ...

The EU General Data Protection Regulation (GDPR) is a first step toward giving EU citizens and residents more control over how their data are used by organizations. If your company handles the personal information of people in the EU, then you must comply with the GDPR, no matter where you are in the world.

Amazon.com: EU GDPR & EU-US Privacy Shield: A Pocket Guide ...

The GDPR unifies data protection across the EU. It applies to every organization in the world that does business with EU residents. U.S. organizations can self-certify to the EU-U.S. Privacy Shield (the successor to the Safe Harbor framework), which permits international data transfers of EU data to U.S. organizations.

How Does the EU-US Privacy Shield Fit with the GDPR?

GDPR – the rights people in the EU will have from May 25 Consumers will have a right to be informed about the collection of their information. Apple, for example, has introduced privacy icons to...

EU GDPR | UW Privacy Office

The GDPR is the European Union's new, comprehensive privacy law that will take effect on May 25, 2018. What makes the GDPR unique and important, however, is its broad material and territorial scope.

What is the EU-US Privacy Shield and ... - EU GDPR Compliant

Privacy Shield allows for the transfer of personal data from the EU to the US and focuses on the methods of data transfer, including third-party transfers. The GDPR is a law that has specific requirements for companies that handle EU data in any country, not just the US. According to GDPR, data transfer may only occur to countries deemed by data protection authorities as having adequate data protection laws. Currently, the US is not generally listed as one of those countries.

Privacy Policy - GDPR.eu

The European Union's General Data Protection Regulation (EU GDPR) broadly applies to information relating to persons residing in the European Economic Area (EEA). EU GDPR limits when and how organizations worldwide can collect, store, use, or otherwise process personal data.
